StrategyCorps | Nashville, TN

January 2019 – March 2020

DATA ANALYST

Quantified profitability of demand deposit accounts by analyzing depository and lending data for financial institutions (CheckingScore model). Structured, mined, and cleaned large data sets to identify institutional market trends and articulate data-driven product recommendations. Presented detailed analysis results to internal senior leaders and to client executives.

- Built disparate VBA macros that normalize addresses, delete extraneous data, and remove unwanted characters from client data.
- Devised method to create special ad-hoc reports based on unique requests. Reduced time to create special reports from three days to one.
- Collaborated on implementation of dashboard to test data integrity by checking reports against FDIC/NCUA websites and internal database.
- Made integral contributions to CheckingScore customization. Identified household relationships with unique identifiers (SQL) and created streamlined philosophy for finding client households based on single unique identifier. Created household key that eliminated need to access SQL server.
- Streamlined data request specifications to accommodate broad range of financial institutions.
- Collaborated with clients to extract software specific code and built software specific data request documentation to streamline data collection and sharing.
- Presented analysis to internal senior leaders and to C-Suite level executive clients.
- As United Way Campaign Leader, increased funds raised by 3% over previous year.

Wells Fargo Bank | MINNEAPOLIS, MN

2017 - 2019

CREDIT AND RELATIONSHIP MANAGEMENT ANALYST

Performed complex credit analysis across investor real estate, transportation, manufacturers, technology, contractors, wholesalers, non-profits, and professional services.

- Streamlined underwriting process by creating dashboard to rapidly calculate key leverage and liquidity ratios.
- Strategized and guided team's BSA/AML consent order project to deliver first-in-region consent order completion.

- Managed Senior Relationship Manager's portfolio and portfolio of covenants and regulation B compliance indicators for Twin Cities metro area.
