EXPERIENCE

PROCTER & GAMBLE

Senior Purchases Manager, Global Asset Recovery Purchases   **2017 - 2019**
- Diverted millions of pounds of scrap materials from landfills, supporting ambitious sustainability goals and delivering millions of dollars in cost savings by managing relationship, contracts, and operations with 2 North America vendors.
- Managed Fabric Care account with 4 US Secondary Market (SM) customers, selling over $55 million of excess inventory, delivering revenue for the company as well as avoiding scrapping costs.
- Facilitated $3+million sales in Canada SM, maintaining customer relations and leading 3 sales specialists.

Supply Network Process Engineer, Oral Care and Personal Health Care   **2015 - 2017**
- Achieved record low levels of non-performing inventory (NPI) and met Inventory Disposal Expense (IDE) goals as process leader, analyzing/reporting data and ensuring timely decisions and execution of actions across all levels of supply chain.
- NPI Key User - Increased capability in all categories and hundreds of end users by working with IT to resolve issues or implement upgrades, leading on-boarding of new users, and spear-heading process changes.
- Implemented new Safety Stock Setting software and process resulting in $30+ million inventory reduction, including providing training, creating Excel tool for end users and overseeing weekly execution of tasks by dozens of users.

Project Engineer, Merchandising Supply Organization, Hair Care and Color   **2013 - 2015**
- Delivered millions in cost savings by leading display design changes to reduce material, labor and transportation costs, while outperforming competitors in quality, aesthetics, and functionality
- Enabled $7 million/year cost avoidance by leading a cross-functional team including multiple external partners, tasked with changing material inspection process at contract manufacturers to support new supply chain design.
- Acted as key cost governance and quality assurance owner by estimating preliminary costs, reviewing final rates and specifications, and managing a team of external designers, spec originators, and contract manufacturers.
- Built the capability of 10 engineers as Network Leader, ensuring all members are qualified in necessary skills and influencing leadership on project priorities and organizational changes.

EDUCATION

NASHVILLE SOFTWARE SCHOOL   2020

Data Analytics program covering Excel, Python, SQL, Tableau, and Power BI projects:
- **Streaming Service Comparison (Capstone):** developed a Tableau dashboard to help users identify the best streaming service based on their preferences by using data web scraped and manipulated with Python.
- **ESPN Soccer Power Index (SPI) Evaluation:** Analyzed predicted versus actual match results based on SPI system, identifying possible adjustments to make the algorithm more accurate.
- **Mobile App Store Analysis:** Recommended top mobile apps to invest in to maximize profit from in-app advertising and purchases, using SQL queries on data from Apple and Android stores.
- **HR Survey Analysis:** Used Power BI to visualize survey results and explore factors contributing to attrition.
- **IRS Dashboard:** Created interactive Excel visualization identifying target areas to assist elderly and low income citizens.

UNIVERSITY OF FLORIDA   2013

Bachelor of Science in Materials Science and Engineering
Minors in Mathematics & Business Administration

SKILLS

LANGUAGE: English, Spanish
PERSONAL:
- Project Management
- Continuous Improvement
- Relationship Management
- Negotiation
- Campus Recruiting

SUPPLY CHAIN:
- Inventory Management
- SAP
- Quality
  - Age Control
  - Specification/standards
- Sustainability

DATA ANALYSIS:
- Excel
- SQL (PostgreSQL)
- Python
- Tableau
- Power BI
- GitHub, GitBash
